**FHI Color Specifier and Guide FHIP200**

This NEW formulated eco-friendly set includes 2,300 market-proven shades in TPG (Textile Paper Green) format. Each page contains six large-sized tear-out chips, ideal for use in apparel, home furnishing, accessories and interior markets.

Replacement pages are available from VeriVide, contact us with the page numbers required. We also have replacement pages for older TPX Color Specifiers - while stock lasts.

**Cotton Planner FHI300**

This compact extensive reference contains 2,310 fabric chips in one convenient A4 binder. Ideal for product development, fabric colour selection and digital design. The 15mmx15mm swatches are glued to the removable pages. Includes PANTONE Colour Manager Software.

**Cotton Passport FHI200**

Featuring the complete Fashion and Home Color System - including 210 new colours. Perfect for designers on the go, the small filofax format contains 15mmx10mm colour chip swatches glued to the pages.

**PANTONE Capture™ RM200 PT01**

**Capture the colour of any surface, material or fabric and then to match it quickly and accurately to a PANTONE colour.**

The portable, compact and lightweight time-saving device comes preloaded with more than 8,000 Pantone colours. Can be used on even small, patterned, multi-coloured textures and textiles. Included software integrates your captured colours into many leading design programs and stores up to 100 captured colours. Comes with protective carry pouch, wrist strap, USB cable, software and quick-start guide. Bluetooth version is also available.

**TPG Sheets TPGS**

**Available for all 2,310 FHI colours**, TPG sheets are designed to illustrate the appearance of colour of products. Ideal for hard home, ceramics, textiles, apparel, paint, cosmetics, fashion accessories and leather goods. Each 216 x 279.5mm sheet includes a printed grid of the colour name and number on the reverse.

**Plastic Standard Chips**

**Your favourite Pantone TPX colours are now available in plastic!** The chips can be used for specifying hard nursery or home goods; and are made from polypropylene and have a matte and a glossy surface. The 75mmx50mm chips have a handy hole in the top corner for palette grouping.

**Nylon Brights Set FFI100**

**Electric Hues add colour vibrancy and your designs.** Features 21 shocking fluorescent shades for developing nylon material products with an internationally recognized standard for accurate colour selection, specification and reproduction.

VeriVide is committed to innovation in colour assessment and quality control. From constructing bespoke standardised viewing environments to developing new lighting products to meet industry standards, improving your quality and productivity is always our priority.
